HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO SEPTEMBER 15.

Pennsylvania Pomological Society.

PHILADELPHIA, Sept. 15.—The Pennsylvania Pomological Society met at Horticultural Hall this morning, Marshal Hilder presiding. Twenty-two seats were represented and the attendance was larger than ever before. An address was delivered by the President. The exhibition of fruits was very attractive, comprising specimens from all sections of the country.

Mining Claim Decided.

CHICAGO, Sept. 15.—A *Republican* Washington special says the claim of the Eureka Gold Mining Co. to 1,664 feet of land running along the Eureka load and including 23 acres of surface ground, situated in Grass Valley, California, has finally been allowed and a patent will be forwarded from the Land Office in a few days.

Steamboat Explosion.

CINCINNATI, Sept. 15.—The steamer *Phantom*, an Evansville and Cairo packet, on her down trip this morning, exploded her boilers at Fort Chamberlain Island, near Paducah, Ky. George Nichols, first clerk, and five or six others, were killed and many wounded. The boat and cargo are a total loss.

A woman's suffrage convention met in Hicks Hall this morning. Among notables present were Mrs. Livermore of Chicago, Susan B. Anthony, and Lucy Stone and her husband.

Pacific Mail Stock.

NEW YORK, Sept. 15.—The downward course of Pacific Mail shares for some time past, attracts much attention. They declined to-day to 72¼, the lowest point reached since 1861, when they sold at 60 in gold. It is stated that a loan was negotiated some time since with a foreign banking firm on Pacific shares equal to about $3,000,000 in currency. This loan falls due on the 22d inst. and will not be renewed. It is also reported that the bulk of the capital stock is concentrated in a few hands, 50,000 to 70,000 shares being held by two firms.

Forger Arrested.

TORONTO, Sept. 15.—Albert J. Gould has been arrested here on a charge of committing forgeries to the extent of $200,000 in Munroe county, New York.

Rise in the Mississippi.

MINNEAPOLIS, Minn., Sept. 15.—A remarkable rise in the Mississippi river has occurred from the long-continued and unusually heavy rains. A boom above the dams broke yesterday and one half million feet of logs ran over the falls, sweeping off the light boards and temporary works of the dam which holds the volume of the Mississippi back. The important works of the dam were uninjured. The Minnesota river emptying below into the Mississippi is reported up 8 feet. Fifteen thousand tons of hay were swamped. The rain storm continued four days and did great damage to grain. The damage in St. Croix county alone is estimated at $150,000.

New York News.

NEW YORK, Sept. 15.—Among the arrivals per steamer *Java* to-day were S. S. Cox and lady.

The Frothingham habeas corpus case has resulted in the declaration of the physicians of his sanity, and his discharge from the lunatic asylum.

Pierce Butler, clerk in a stock house on Broad street, was arrested for receiving ten $1,000 United States bonds recently stolen from Alfred Calvin. The supposed thief is also in custody.

Speech by Prince Napoleon.

NEW YORK, Sept. 15.—The speech of Prince Napoleon fills six columns of the *Official Journal*, and late foreign papers abound in comments. He touched upon the following five points: Ministerial responsibility incompletely and vaguely stipulated by article second of the project, the composition of the Senate to be at least in part the result of popular elections, the question of Imperial favor, the elector and circumscription of Districts, the evil of whose present eccentric arrangement was abundantly seen at the last elections of Mayors by the Municipal Council, and the necessity of having two Chambers sharing in the Legislative power with the Emperor. In the course of his speech Prince Napoleon said: "I am anxious to affirm my entire and complete devotedness, not only to the Emperor, but to his son. [Loud applause.] I understand better than any one that my interest as well as my affections are indissolubly bound up in the empire. [Hear, hear!] I believe the co-existence of the empire with liberty perfectly possible. Those who think it are themselves as unreconcilable as they maintain these two words to be. Liberty may be, for a time eclipsed, but it is the beacon toward which all civilized nations are tending. France has the right to count herself the enemy of those who look upon present reform as contrary to the principles of the empire. They are enemies of the Government. Those who consider them an experiment only will be equally dangerous. I would have an empire of personal authority burn its vessels and abandon all ideas of receding. The art of Government is to give way to just aspirations. All around us in industry and science is advancing. Would you have political institutions to remain stationary? Progress is as necessary to the latter as in the former, and that onward march belongs to imperial traditions.

Ohio State Fair.

TOLEDO, Sept. 16.—The State Fair is now in progress here. It is the most successful ever held in the State. The entries number forty-three hundred—a thousand in excess of last year. All the depots are full. That of live stock is especially attractive. The attendance to-day was not less than thirty thousand.

Boston Dispatch.

BOSTON, Sept. 15.—George Peabody yesterday donated $5,000 more to the Peabody Institute—making the entire gift $20,000.

Twenty-six Cuban filibusters from New Bedford were brought here to-day, arraigned before U. S. Commissioner Hallett for violating neutrality laws and sent to jail in default of bail.

BY ATLANTIC CABLE.

LONDON, Sept. 14.—The Parisians are persuaded that the Emperor is recovering, although there is a marked alteration observable in his appearance. There is great anxiety in regard to the Regency. By law the Empress is Regent during the minority of her son. It is generally believed that the Emperor desires to promote good understanding between the Empress and Prince Napoleon. The idea of intrusting a share of the Regency to the Prince is discountenanced by some, while reports are current that the absence of the Prince on board his yacht is connected with plans of others in his behalf, if not directly with his own.

The *Journal Des Debats* referring to the recent meeting of Americans in London for the purpose of congratulating Prince Napoleon on his liberal speech in the Senate, says, a little more and it would be considered there was some danger in speaking this congratulation which was eulogy carried too far. The speech of Prince Napoleon showed good sense, shrewdness, eloquence and moderation; but no peril was braved to have made such a speech. Ten years ago it would have been an act of courage, but there is no boldness now in telling the Senate what everybody but the Senate thinks.

The *Times* predicts that the Ecumenical Council will not sit longer than three weeks, and will declare the infallibility of the Pope on the proposal of the English prelate. It also believes that the recent sylabus of the Pope will be made the law and the assumption of the Virgin will be proclaimed.

A meeting in favor of granting pardon to the Fenians now under sentence was held to-day at Clerkenwell. Arrangements are completed for a monster demonstration on Monday next.

Lord Byron's steward denies the truth of Mrs. Stowe's statement.

The *News* hopes that when the ocean races are revived, vessels of nearly equal tonnage will be matched, to be of the size of about 300 tons. If this is done heavy weather will be no impediment and the result will be more satisfactory.

LONDON, Sept. 15.—A large meeting of cotton merchants, spinners and manufacturers, was held at Manchester last evening for the purpose of considering the condition of the trade in Lancashire. Speeches were made and resolutions adopted asserting that it was expedient to form associations to urge Parliament to institute inquiry into the causes of the depressed state of capital and labor. It was also resolved to hold a series of public meetings in the principal towns. The want of reciprocity in the French treaty and the system of American imports and English exports generally, were considered.

BERLIN, Sept. 14.—The centennial anniversary of Humboldt, is made the occasion of a national demonstration. Although the weather is rainy, great crowds participated in the festival. In the forenoon there was a procession, made up largely of delegates from the principal German cities. In the afternoon the corner stone of the monument to Humboldt was laid with impressive ceremonies, which closed by a decoration of the tomb of the great naturalist, at Konigsberg. During the festival in honor of the visit of the King, the railing bridge was over crowded with spectators and gave way, many being precipitated into the river. Twenty four bodies have been recovered.

DUBLIN, Sept. 14.—The Lord Lieutenant, in reply to a deputation from the city corporation, said Her Majesty's Government had attentively considered the land question and the release of Fenian prisoners.

VIENNA, Sept. 14.—Prince Charles, of Romania, has arrived and had an audience with the Emperor, at which the position of the Jews in the Provinces was discussed. Subsequently he had an interview with the chief Rabbi of Vienna.

MADRID, Sept. 15.—The journals assert that the Government recently sent a circular letter to the Great Powers respecting the note of Sickles on the subject of the recognition of Cuba, and that replies favorable to the rights of Spain have been received from England, France and Austria.

GENERAL NEWS ITEMS.

A walnut tree eight feet across, petrified into soapstone, was lately discovered 176 feet deep in a coal mine in Illinois.

Both parties are anxiously watching Vallandigham, to see whether he will take the stump for Pendleton. Even Vallandigham and Horatio Seymour never consented to Pendleton's monstrous repudiation doctrine.

Governor Harvey, of Kansas, has promised to attend the National Capital Convention in St. Louis, and to appoint a strong delegation to represent his State. Governor Geary, of Pennsylvania, has declined to appoint delegates, and we are told by a St. Louis paper that "his response would seem not to be in favor of removal until the national debt is paid."

Another applicant for independence from British rule is appearing to add to the agitation of this subject both in the colonial and home councils of Great Britain. We allude to Australia. That far-off colony is now setting up a claim and showing reasons why the independence of the six Australian colonies and their federation in a republic should come to pass.

The present issue of the fractional currency now being printed is the fourth series since 1862. Of the first, second and third series, more than $20,000,000 is now outstanding, about $8,000,000 of which is of the first and second issue, and it is estimated that $6,000,000 or $7,000,000 of this amount will never be presented for redemption. Hence there is an actual deduction of that amount from the public debt, although the books of the department do not show any such decrease.

The proposition to divide Tennessee and Arkansas and create new States therefrom has been heretofore alluded to. Another State is about to sell a part of its territory to Alabama. A letter from the South says that the Governor of Florida has just issued his proclamation calling for a vote of the people on the cession of the western half of that State to Alabama for $1,000,000 of eight per cent. bonds, running 30 years. The election comes off on the 1st of November next. It will undoubtedly be agreed to, and the consent of Congress is then required.

Dr. Franklin's fund of £1,000, which he willed to Boston in 1791, and expected to increase to £131,000 in a hundred years, amounted to only $153,498 86 on the 1st of January last, and at this rate of increase will not reach that amount at the appointed time. Dr. Franklin directed that it should be loaned in small sums to young married artificers; that £100,000 should be expended for public works in 1891, and the remainder continue on interest another hundred years, when a portion was to go to the city and some $3,000,000 to the State.

THE WEST.

Joe Coburn, the would-be champion prize fighter of America, superintends a game of rondo in a saloon in Sacramento.

Koopmanschap has left again for the East on a visit of a few weeks, to complete arrangements in reference to the transportation of Chinese laborers to the Eastern States.

The San Francisco *Examiner* keeps itself in a terrible rage at the independent Democrats of that city who bolted its obnoxious municipal ticket, and is fierce to make their "treason odious."

Gov. Haight, of California, is a brilliant statesman. In his recent speeches he assured the people that California would not be bound by the Fifteenth Amendment unless the State ratified it. At Stockton he said: "It makes no difference if three fourths or even nine-tenths of the States should ratify the Fifteenth Amendment, it would not be binding upon California, nor would it be binding on any State that did not ratify it."

The San Francisco *Bulletin* says: Competition by the two great lines of travel between the Atlantic and Pacific States has already brought the fares down by steamer to $100 for cabin passengers. This reduction will probably involve another modification of prices by railroad. The time is not distant when travelers will have their choice of routes going either by land or water from one side of the country to the other for $100 in currency.

General Rosecrans' Letter.

[From the Philadelphia Press.]

The weakness of the Democratic party consists in the fact that most of its intelligent members are more than half inclined to be Republicans. Gen Rosecrans gave utterance to thoughts at work in a million of other minds. He says after declaring for universal suffrage and against repudiation, that he believes his views "are explicitly or inexplicitly held by three-fourths of our voting population."

What sort of cohesion can there be in an organization so embarrassed? The leaders assert doctrines which the masses doubt or deny. The South has one platform—the North another. One side courts the colored vote—the other side condemns it. Pendleton declares for an unlimited paper currency—Hoffman ignores it. Andrew Johnson declares for repudiation—Chase against it. And if these differences distress the leaders, what must be the condition of the rank and file? What intelligent Democrat will not turn with disgust from warring counsels and conflicting creeds? An organization to win must be a unit in its action and its in ideas. The one cannot exist without the other.

The Republicans have one purpose and one platform. They are the same in Arkansas and in Kansas, the same in Maine and in Maryland, the same in Connecticut and in California. General Rosecrans is right. He revealed the trouble in his own mind and in doing so echoed the trouble in many others. To such a pass is a great party reduced by the refusal of its leaders to accept the lessons of the times, to recognize the changes in society, and to follow the clear inspiration of patriotic duty.

The jealous widow, who was quite sure she had Commodore Vanderbilt, avers that Mrs. V. is very awkward, she cannot even eat sweet corn gracefully, and the little eighteen year old misses, each of whom made astonishing inroads on the affections of the railroad magnate, all spitefully affirm the horrid assertion is beyond all controversy true.

SUPREME COURT DECISIONS.

September Term, 1869.

State of Oregon Respondent vs. William Ellis Appellant.—Appeal, Clatsop county.

From the judgment and sentence passed upon appellant, in the court below, on a verdict of guilty of an attempt to commit rape, he appealed to this court, and the notice of appeal contains no specification or assignment of error. Appellant moves the Court to dismiss the appeal for that reason.

Hill & Mulky for Appellant.
E. D. Shattuck for Respondent.

Wilson, J.—The requisitions of the Code in reference to appeals in criminal materially differ from those in regard to civil causes. On the part of the State the grounds for appeal are limited to two causes. Notices are to be served differently. No bond in appeal other than a bail bond is required. The effect of the appeal is changed in some respects. And the reasons for dismissal are limited, and nowhere does it require that the notice of appeal shall contain an assignment of the errors. The Legislature evidently intended to provide all necessary regulations in appeals in criminal matters in the enactment of the Chapter XXIII of the Criminal Code; and when a party has complied with all necessary provisions found there, we think he has a right to be heard here. In order that certainty may be obtained in this class of cases, under the authority of the statutes, this court will order as a rule, that, after the appealed case is in this court, the appellant shall, if required by respondent, make and file here an assignment of the errors relied upon, within such time as the court may indicate. The motion is denied.

Immigration and Schools.

FOREST GROVE, Sept. 14, 1869.

EDITOR OREGONIAN:

Something is being done to make known throughout the Interior and Atlantic slope, the vast resources of our State, with the view of inducing immigration. This is proper and timely. But may not something besides the diffusion of information be necessary? Have we done all in our power to render Oregon as inviting to the settler as other new States? Ought not our State, otherwise so attractive, to ... ments in an *educational* point of view? ... national ... has provided us with ... of Academies, and ... Colleges; but what provision is there for the Common Schools ... People's Schools? True, a good ... only a *beginning*. Kansas, ... and California are ahead in the race. Each has its Normal School, giving professional training to ... and daughters of its own soil for its future teachers.

The immigrant most desired and most needed to build up a new State, is the one who looks well to the school law and the provisions made for public instruction in his new home. Land, to-day, is cheaper in Indiana than in Illinois, because the former State gives only an insignificant support to the public schools for a small portion of the year, while the latter has made ... provision for *Free Schools* the year round. The writer of this article has ... instances where individuals have purchased farms at higher prices in Illinois than they ... in Indiana simply ... for Common School advantages ... the latter State is beginning to move in the ...

The following suggestions are made ... that others may agree with ... and ... able action may be had, placing Oregon in the front rank, educationally:

1. Let the State establish a Normal School to train up Oregon pupils as professional teachers.

2. Let the school law be so ... that a District can draw no public money unless ... school has been kept up *six months* during the year, in the district.

3. Let the school law be so ... (if ... this amendment) that the voters of a district can vote to levy a tax to raise sufficient money in addition to the public money to ... six months or more during ...

4. Let the teachers of the State ... by their good works that their profession is no lesser or less honorable than any ... whatever, and is ... respect and esteem as any other ..., and no more.

5. Let the teachers generally throughout the State attend the State Association, and make it a success.

Yours truly,
A. J. ANDERSON.

A Grand Express War.

The 15th of the present month will ..., is the inauguration of a grand war ... the express companies now in existence and ... which will then come into being. The Central Pacific Railroad Company and ... capitalists will then organize an express ... to be called the Pacific Express, to go into ... on the date mentioned. The Pacific Union Railroad Company has organized what is known as the Continental Express Company, and the two will co-operate to do the overland express ... on the Pacific Railroad. In the meantime an arrangement has been entered into between the Pacific railroad companies and the Eastern connecting railroad companies, by means of which an effort will be made to force the latter into transporting the express matter of the Pacific and Continental companies.

Wells, Fargo & Co., have ... notified to quit transmitting by the Pacific Railroad on the 15th, and in concert with the United States, Adams & Co., and the American Express companies, will contest the right of the Pacific Railroad to refuse express matter, unless shipped by the Pacific and Continental Express companies. On and after the date specified all express matter for the East will be transported as far as Promontory by the Pacific Express company, and thence to Omaha by the Continental, whence it will be forwarded to place of destination by Eastern express companies; and in the event of their refusal, the connecting railroads are to be forced into doing the business under the arrangement alluded to. The Union Pacific Express Company takes no active part in the fight, but will probably incorporate with the Pacific at some ...

Whatever may be the termination of this grand struggle, it is to be hoped that the public interests will not be allowed to suffer. It is scarcely to be feared that the conquering party will commit the indiscretion of imposing such high rates as to invite powerful competition and repress the tendency to inaugurate a large and valuable overland traffic. By putting down charges to the lowest paying figure, the field can be maintained and a popularity earned which will foster the business and render it highly remunerative. The contest will be of gigantic proportions, involving all the express companies and many of the leading railroads; it will create a great sensation in financial and commercial circles, and may open the eyes of the public to many things of general interest connected with the business of expressing.—*S. FRIDAY MORNING SEPT. 17, 1869

A Lesson

It will not be amiss to glance at the political condition of California with a view of deriving a lesson from it for the Republican party of Oregon.

The election returns from that State show that the Republicans should not have been beaten. In most of the counties the Democrats did not poll so heavy a vote as last year when Grant carried the State. The Democratic vote last fall was 54 078. It is now below 50,000. Yet the Republicans are beaten more than two to one in the Legislature. What is the cause of so singular a result?

It cannot be attributed to an uprising of the people against the Fifteenth Amendment or against the general policy of the Republican party, for the returns show that no Republicans have voted Democratic tickets. In fact there were many Democrats who did not cast their ballots. The decreased vote of that party shows this. The simple fact is that many thousands of Republicans did not vote at all. Why did they neglect to do so?

There is one answer which will suffice for the explanation of this matter. In no other State is the Republican party so ridden down by scheming, self-seeking politicians, as in California. It has been paralyzed and rendered utterly inefficient by their selfish ambition and bitter rivalry. These men are determined not to let go their hold so long as there remains the smallest chance of using the party to accomplish their objects. Only when the party is hopelessly defeated, with no prospect of immediate recovery, can they be shaken off. It is to be hoped that this time has now arrived. Ever since Gorham obtained the nomination for Governor by trickery and fraud, the *morale* of the party has been broken. The Tite Barnacles of the Gorham and Conness faction undertook this year to "put up" things so that they could control the Legislature in the next Senatorial election. The rival interests of Cole, Sargent and others, also appeared in the field. Nominations in all the counties which were deemed Republican were "put up" in the interest of one faction or another. The party, however, revolted. They would not submit to such juggling. The campaign was carried on without the smallest enthusiasm. Nobody made any exertion on the Republican side. When election day came, thousands of Republicans declined to go to the polls. Cliquism was fatal to the party. The Democrats elected their candidates because the Republicans made no opposition.

This is the course by which the prestige of the Republican party in California has been destroyed. A few years ago it was invincible, and might still have been so. The lesson to be learned from its present condition is that no party, however strong, can maintain its ascendancy when its nominations are manipulated by cliques for personal and selfish ends. The Republicans of Oregon we are sure will avoid the error which has overthrown the Republican party in California.

Fruits of Democratic Statesmanship

Six hundred and fifty thousand dollars in gold is the sum awarded to the Hudson Bay and Puget Sound Agricultural Companies by the Commission appointed to adjust their claims against the United States. This is one of the results of that bungling and short-sighted Democratic statesmanship which came near sacrificing our whole interests on this northwest coast. Instead of asserting and maintaining our rights here, this party gave up a large extent of territory to which we were justly entitled, to Great Britain. Not only this, but the whole matter, even so far as it was pretendedly settled, was left in inextricable confusion; and now we have on our hand the San Juan controversy, and are compelled to pay an extravagant sum to extinguish the rights of foreign corporations on the fragment of territory left us. A few years ago the country was ruled by a party whose representative men had no idea of the importance of this portion of the Republic, and who therefore allowed British statesmen to make their own terms as to its disposition. Every step they took was a blunder. They threw away a territory which would now be of the greatest value to us,—though they manifested a ready alacrity to encroach on the rights of other nations in every case where there was a chance to extend the domain of slavery. Yet the party which thus readily sacrificed our interests here, has the visage to censure the present administration for not adopting a more pronounced foreign policy. There never has been more impotent management in the history of our Government than that of the Democratic party in this northwest boundary affair. Every day the fruits of it appear in one way or another. The country has quite enough of this kind of statesmanship.

In General.

The *Herald* thinks our arguments against steamboats, railroads and labor-saving machinery quite "sound," and declares that no one would know they were intended for satire. We supposed they would please the Nasbys of Oregon, of whom the editor of the *Herald* is establishing a right to be called chief. We shall expect that paper at once to throw away the steam engine which drives its press and hire a strong man to turn it by hand. It has been using the cheap labor of that engine and keeping the bread out of the mouths of some poor man's children, quite long enough.

The well informed Chicago *Post* tells us that the old man, survivor of the revolution, more than one hundred years old, who always rose with the sun, never drank anything in his life stronger than brandy and sugar, who has cut two cords of fire wood daily every day except Sundays for the last sixty nine years; who invariably walked five miles before breakfast, who is the father of thirty-eight children, the grand father of two hundred grandchildren, and the great grandfather of thirteen great grandchildren, and who would shortly have been the great great grandfather of one great great grandchild, is dead. And now we hope nobody will disturb the good old man any more.

The Sacramento *Union* observes that the Capital organ of Democracy in California seems to have had a relapse from its extravagant joy over the late election. That result, it apprehends, may not be so decisive after all. Too many voters staid at home. It was not "a great uprising," that is certain. The people were not influenced nearly so much by quaking apprehension of "the negro, the Chinaman and the Fifteenth Amendment," as was supposed. So the organ advises its readers that the Republicans are only lying in ambush, they may come out in October and vote for the best men for Judges, regardless of the stale old issues. Hence it wrings its hands and actually "implores them to go to the polls" and vote for Wallace next October. This early and earnest call upon the faithful indicates some alarm in view of the independence of individual action which was the most significant feature of the late election.

The *Herald* speaks of the condition of laborers in England, and says: "This is the condition of affairs that the infernal Union League propose to inaugurate in America by bringing a hundred million of heathen Chinese to compete with our present healthy population of Caucasians." Let us correct the *Herald*. This policy of bringing Chinese here was inaugurated by the Democracy. There were thousands of Chinese here before the infernal Union League was ever heard of. These people are still coming to this country under treaties made by a Democratic administration. We have no treaties with China except those the Democracy gave us. It is the Democracy who now propose to bring Chinese into this country in vast numbers. The Southern Democracy have already made large contracts for them and Democratic agents are now on the way to China to bring them over. It is Democrats who employ Chinese most extensively in Oregon. We could name great numbers of Democrats here who employ this kind of labor almost exclusively. For years the wood which has been consumed in making steam to print the *Herald* has been sawed by Chinamen. Let us give the Democracy the credit to which they are justly entitled, and not allow the "Union League" to rob them of it.

THE WEST

The fall races over the Boise City course will commence on the 20th of October. Several purses have already been made up and more will be added to the list.

The total assessment on the Oakland (Cal.) tax roll amounts to $3,583 440. The supplemental roll will increase it to about $4,000,000. Last year the two rolls amounted to $4,364 078.

The unregenerate and blasphemous fellow who does the local for the Corinne *Reporter* alludes to the distinctive feature of Mormonism, polygamy, as "barn yard matrimony." That's the worst "lick" ever struck at the saints. Brigham will have to suppress him.

An unsquelched Democrat in San Francisco undertook the other day to revenge the defeat of McCoppin by beating a Chinaman. The enterprise proved disastrous, for the Chinaman was likely to get the best of the fight and would have "waxed the "unterrified" had not the crowd interfered.

About 2,700 barrels of whisky, valued at $200,000, have been seized by the Revenue Collector at San Francisco. The barrels are represented as containing high wines, while the Government claims that it is rectified or compounded whisky. If the theory of the Government is sustained the whiskey will be forfeited.

The San Francisco *Herald*, (D.) says: "There is such a thing as a party becoming too strong. Internal dissensions, which come from the exercise of unlimited, irresponsible power, have proven more disastrous to parties in this State than open defeat. The California Democracy have more to fear from this than from the Republicans."

Having lost control of San Francisco, the Democrats threaten to put a bill through the Legislature to create a metropolitan police whereby they will be enabled to maintain their police strikers. The passage of such a bill would have the effect to complete the revolution in San Francisco, and might give the Republicans the State next fall.

The Boise *Statesman* of the 11th says: "During the last two days we have conversed with several persons returned from the Loon Creek diggings, and there is but one opinion expressed in regard to them, and that is that they are one of the richest if not the richest ever struck in the territory or anywhere else; that it will take some time to get a large number of claims open, but when they get fairly to work the yield will be most astonishing."

Christian College.

MONMOUTH, Sept. 14, 1869

ED. OREGONIAN

This institution among others in this State, is taking a position and assuming an importance worthy of note. It is pleasantly situated in the center of the valley, two and a-half miles west of Independence, Polk county, and easy of access from all parts of the State. No more eligible point for a literary institution can be found. The scenery is unsurpassed in beauty and variety of prospect, embracing fertile plains, rolling prairies, wooded hills, and mountain ranges extending to Mount Jefferson and Mount Hood, both of which are in view from the College premises. In a rural district surrounded by a Christian community justly noted for their industry, moral worth, energy and enterprise, and free from the allurements, diversions and vices of a city. It offers to the student unlimited facilities for study, and for progress in every department of learning which improves the head and the heart.

The College premises are spacious—ten acres enclosed and partly set in maple and fir trees—with a building provided with lecture and recitation rooms, ample for the accommodation of one hundred and fifty students. A large bell of superior tone calls the students to duty, and competent teachers guide them in their pursuit after knowledge. The opening exercises of the current session on Monday, Sept. 6th, were of the most impressive and interesting character. Profs. Campbell and Butler, by whom the exercises were conducted, possess those qualities and qualifications of mind, moral excellence and energy which give promise of the finest results for the present session, and point to success in the future.

Prof. T. Campbell, recently from Montana Territory, where, as Territorial Superintendent of Public Instruction, he has been for the last two years engaged in perfecting a common school system for a mining country, and organizing districts and establishing schools, is a graduate of Bethany College, Virginia. Twenty years of active duties in schools of every grade, from the district school to the college, have given him extensive and varied experience as well in the tact of governing as in the art of teaching. To a ripe scholarship rendered eminently practical by experience, he unites fine social qualities and moral worth which make him a proper guide and model for youth.

Prof. A. D. Butler is a young man raised in our midst, whose parents live among us, whose fine talents, unassuming, modest deportment and moral excellence command him for the position he occupies. He is a graduate of Abingdon College, Illinois, where he graduated with honor. He conducted the school the last session with entire success, and established for himself a fine reputation as a teacher.

The experience, reputation and energy of these two gentlemen must secure for this institution a high position amongst the literary institutions of the valley. The price of tuition is moderate, and students can board in private families at from three to four dollars a week.

The health of the place is unsurpassed; it being far enough from the river to be free from miasmatic influences and having plenty of fine water, it furnishes a desirable location for the mechanic who as business depends upon a rich and prosperous farming community by which it is well surrounded.

SETTLED RESULTS.—We commend the annexed resolution adopted by the Democratic State Convention of Massachusetts to their friends in Oregon who have thus far declined to acquiesce in settled results. When our own Democracy shall consent to postpone fruitless opposition to accomplished facts indefinitely they will have better reason than now to hope for some effective action upon the pressing problems of to day. Hear the wiser partisans of Massachusetts:

Resolved, That the Democratic party of Massachusetts have no new theories to advance upon national subjects. Recent events as well as the experience of our earlier history, serve to convince us that the further the nation wanders from the old and cherished principles of Democracy the more urgent grows the need of a return to them, but we nevertheless deem it a political duty to acquiesce in settled results, and postpone fruitless opposition to the accomplished facts of yesterday, in order to secure effective action upon the pressing problems of to day.

[DISPATCHES TO THE OREGONIAN.]

DATES TO SEPTEMBER 15

Washington News.

WASHINGTON, Sept. 16.—Leading members of the Government favor the naturalization protocol ratified by the Senate, but the English Parliament has not yet passed the law necessary to carry it into effect. Minister Motley has since been engaged in negotiating for a Consular treaty, a measure considered of much importance by this Government, but they are not free at present to finally accept it. The Administration has not, contrary to report, restricted Motley in re-opening negotiations for the settlement of the *Alabama* [illegible], although it was thought at the time he received his instructions that it would be inexpedient to wait until the excitement in England over the Senate rejection of the Clarendon Johnson treaty had subsided before entering into the subject with her Majesty's government. It was never contemplated that Motley should neglect any favorable invitation or opportunity to renew his negotiations. It is no secret that he is specially instructed on the subject.

The Avondale Sufferers.

PLYMOUTH, Penn., Sept. 15.—The board of managers of the Avondale relief association to-day appropriated $3 000 for the immediate wants of the destitute and appointed an executive committee for the management and distribution of the fund. The receipts thus far are over $18 000.

Suit Against a Typographical Union.

ERIE, Pa., Sept. 15.—The President, Secretary and several members of the Erie Typographical Union have been arrested at the suit of W. P. Atkinson, proprietor of the Erie *Republican*, for damages sustained in the sum of $5,000 in consequence of the late strike in his office. They were bound over to appear at the next term of court.

Gen. Sickles and Cuba.

WASHINGTON, Sept. 15.—It is ascertained from reliable sources that Gen. Sickles was not authorized to make any demand upon the Spanish government. He was instructed merely to act discreetly but with earnestness as mediator between that power and the Cubans, on the basis already published for the independence of the Island.

Card from Brownlow.

NASHVILLE, Tenn., Sept. 15.—Senator Brownlow publishes a card stating that he has disposed of his interest in the Knoxville *Whig*, but that that paper will continue to support the Radical cause. He says so many Union men in Tennessee have gone estray, that he would advise his Northern friends to accept Tennessee Republicans for what they are worth to day. He has evidently lost faith in his former comrades.

Base Ball.

ST. LOUIS, Sept. 15.—The Red Stockings arrived this forenoon en route to San Francisco. They played the Unions this forenoon and beat them badly, score, 70 to 9.

BY ATLANTIC CABLE

PARIS, Sept. 15.—The Emperor presided to-day at the council of Ministers. Official journals announce that the health of the Emperor is restored. The *La Patrie* states that the Empress will leave again for the East on the 30th. Gen. Prim accompanied by Silvala Olgoza, visited the Emperor. It is understood the Cuba question was discussed at the interview. Prim was said to be well satisfied and will return to Madrid Saturday.

MADRID, Sept. 15.—The *Imperial* says Prim telegraphed Government that he will hesitate at no sacrifice to subdue the insurrection in Cuba.

BERLIN, Sept. 15.—In consequence of restrictions upon the French Atlantic Cable Company, the federal telegraph association of the North German States have resolved to forward all dispatches for America via Valentia, without exception.

LONDON, Sept. 15.—The report is repeated that the Czar has forbidden the attendance of Russian Bishops at the Ecumenical Council.

Telegraphic communication between Russia and Eastern China is interrupted by inundation in the vicinity of Lake Baikal. The wires are prostrated for miles and many stations destroyed.

The monthly service of the new line of steamers between London and Aspinwall, commences in January.

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO, Sept. 16.—The Odd Fellows turned out in force this afternoon to meet the deputation from the Grand Lodge of the United States and welcome them to San Francisco. At 1 o'clock the procession began to form on Montgomery street, and at 2 o'clock had taken the following order:

First Division—Comprised Grand Marshal with National Guard, preceded by First Artillery Band.

Second Division—California street, consisted of four I. O. S. with drawn swords, the initiate brethren of white degree, brethren of pink degree and brethren of blue degree.

Third Division—I. W. Cherry, Marshal, California street, four I. O. S. with drawn sword, two brethren of green degree, brethren of scarlet degree.

Fourth Division—Henry C. Squire, Marshal, on Sacramento street, displaying west four I. O. S. with drawn swords, all other officers of Lodges in position according to station.

Fifth Division—John H. Titcomb, Marshal, on Sacramento street, displaying east four sentinels with drawn swords, members of encampment and officers of encampment.

Sixth Division—Under command of the W. Grand Marshal of the Grand Lodge of California on Montgomery street, San Francisco Band, Grand Sentinel and Grand Herald with drawn swords, members of the Grand Lodge of California and visiting Past Grand Scribes, officers of the Grand Lodge of California Grand Sentinel and Deputy Grand Sentinel with drawn swords members and officers of the Grand Encampment of California.

Procession moved down Montgomery street and there the National Guards marched on and stacked arms between Pacific and Jackson streets, to wait for their return. The main body marched down Washington street to Battery, Battery to Davis, Davis to Broadway, when it halted. There they were joined by the Grand Lodge of the United States, making the seventh division, under command of the Worthy Grand Marshal of the Grand Lodge of the United States. The procession then returned up Broadway to Sansome, Sansome to Pacific, Pacific to Montgomery, Montgomery to Market, along Market to Kearny, Kearny to Bush and up Bush to the California Theater. The California Theater was densely crowded with brethren and invited guests.

After the reception the guests were escorted to their hotels with bands of music.

A meeting of the Base Ball Clubs was held last night to prepare for the reception of the Red Stockings, from Cincinnati. Committees were appointed and the meeting adjourned until Wednesday evening.

John Gurvine, native of Ireland, aged 30 years, committed suicide at his residence on Rich street this morning by hanging himself with a clothes line to a post.

C. A. Anderson, native of Prussia, 44 years old, committed suicide this morning at the Constitution Hotel, Jackson street, by hanging himself with a hay rope.

The celebration of the anniversary of Independence of Mexico takes place at Dashaway Hall to night.

THE DAY OF ATONEMENT EXERCISES OF THE NEW CONGREGATION.—The exercises of the solemn day of atonement were performed by the New Congregation, with that simplicity which characterised the Synagogue service of the Hebrews from their beginning. The congregation was more numerous than had been anticipated; solemn seemed to dwell upon every countenance. On the eve the exercises lasted from half-past six to twenty minutes past nine. The remembrance of the souls of the departed, (similar to the Roman Catholic Mass) was deeply affecting when the import was explained to us. Here a son would approach the altar and have a supplication offered to "The Lord, the Fullness of Mercy." (Thus the prayer commenced in the prayer-book before us) in behalf of a departed parent. He would be followed by a parent who wished the remembrance of an early departed son or daughter brought before "Him" whose throne is on high (as the supplicatory formula continued). Now a widowed husband would have supplication offered for "the wife of his youth," whom the hand of God had removed from his desolate home. Here a widow or a daughter would, through a male friend, who in her stead, would approach the altar—modesty forbids women to approach the altar amid an assembly of men—request supplication. We, for our part, were moved to veneration when we saw a venerable gigantic figure, inclining towards old age approach and have the offering made for the soul—as my neighbor whispered to me—for the soul of an infant child that was called hence years ago. The whole congregation was moved when a widower, such but a few months, approached and paid reverence to the memory of his lately departed wife. We thought such public acknowledgment ... the departed, and of a belief in an immortality highly elevating.

... was prepared in earnest words by Dr. ... He asserted that the belief in an immortality was universal among the race (wherever it reached any degree above the animal) was a first truth ... the collective human soul, as are other ... the existence of God, of retribution. We ... wax tapers burn, and were told these were lights prepared by hand, (and not by art in factories, or by any way) generally by the relative of the departed, and lighted as the symbol of the human soul. In reference to Proverbs 20:27, "The soul of man is a divine light," the preacher alluded to those lights, telling his audience that these memorial lights, on the altar, in the sanctuary, were symbolic of the soul of the righteous in the abode of eternity. The preacher earnestly impressed it upon the minds of the congregation not to allow themselves to be carried away by the spirit of the age (by rationalism) which, instead of converting souls to religion betrays the soul to the world, and, being worldly, it is so pleased with the ... it substitutes for religion, that it congratulates itself at the religion it has found at last (its own reason ...) and calls it reform.

The melodies and chants sounded to us plaintive, which they on that day are undoubtedly intended to be, and very primitive. The whole tenor of the reading was harmony. The chaste, soft, silver-toned voice of the ... humility and penitence. We could not ... that noiseless softness disturbed by the ... sound of strangers.

The service, at mid-day, (in English), treated on the symbolic character of the day which was illustrated by the contents of the liturgy, containing the confession, the ... at the death-bed, and over the dead. ... the dismissal, a short address in German impressed on the minds of parents to see particularly that religious instruction and training be early and carefully imparted to that portion of the congregation whom ... destined to be mothers in future.

The members of the new congregation congratulate themselves at the success they have so far met. In every ... Everything seems to prosper beyond their expectations.

A CALCULATION.—HOW MUCH A MAN EATS.—A ... of calculating turn of mind has been figuring ... how much a lively man eats in a lifetime of three score and ten, and this is the result: 10 oxen, 200 sheep, ... calves, 200 lambs, 50 pigs, 1,200 fowls, 300 turkeys, ... 400 ducks, 200 pigeons, 1,400 partridges and ... 600 woodcock, 1,400 snipe and other small game, ... 600 hares and rabbits, 40 deer, 120 guinea fowls, ... and 200 wild fowls. In fish, 100 turbots, ... 200 cod, 260 trout, 400 mackerel, 400 flounders, 300 eels, 150 haddock, 400 herrings, and 10,000 ... also 20 turtles, 30,000 oysters, 3,500 lobsters and ... 10,000 prawns, shrimps, sardines, and anchovies. ... 150 pounds grapes, 50 pineapples, 2,000 peaches, ... 240 melons, and some hundred thousand ... plums, green-gages, apples, and pears, and millions of ... currants, walnuts, chestnuts, ... etc. In vegetables of other kinds, 25,535 ... weight; about 2,334 pounds of butter; 684 ... of cheese; 21,000 eggs; bread, 14,000 pounds; ... salt and pepper, 1,000 pounds; of sugar, 4,500 ... THE COLFAX PARTY.—Telegrams have been received from Mr. Colfax, en route to California, one of which ... Jones, 15th, says: "All well and getting on ... Shall go through to Oroville without stopping. ... regards to Portland friends." The next is dated ... 16th: "Stage Company have left nothing undone. Had four hours rest at Jacksonville. Ladies all better than when they started. All agree it is the most beautiful and picturesque ride they ever enjoyed."

EXPORTS.—The *Commercial Herald*, of Sept. 10, acknowledges the receipts from Oregon, from 1st Jan. to date: Flour, qr sks 267,110; wheat, sks 29,746; oats, sks 8,620; barley, sks 240; salmon, bbls 1,054, hf bbls 1,236, ... pkgs 1,464; bacon, pkgs 1,156; beef, bbls 453; butter, pkgs 593; cheese, pkgs 12; hams, pkgs 223; lard, pkgs 1,658; pork, bbls 833; dried apples, pkgs 3,729; pig iron, tons 825.

BROWNSVILLE.—A gentleman from Brownsville informs us says the *Commercial*, that the woolen mills at that place are not in operation, nor will they be likely to be before spring, if then, it being the conclusion of the present company that it "won't pay" to run the mill. He says times very dull there; the place to all intents and purposes being "dead," and most of the houses are vacant.

SUPREME COURT PROCEEDINGS.—Salem, Sept. 15. The case of E. H. Dearborn, administrator, etc., appellant, vs. ... J. Patton, et al, respondent, was argued and submitted. This case is the last one from the Second District. The court in the afternoon commenced on the ... from the Third District: The case of Heatherly, appellant, vs. Hadley and Owen, respondents, was taken

MACHINERY RAISED.—Capt. Fisher informs us that he is succeeding quite well in raising the machinery of the steamer *Ranger*, lately burned. One of the engines is already in the scow and the other is ready to be lifted. They are not injured at all. One end of the boiler has been lifted out of the water. It does not appear to be injured further than that two or three of the flues are loose in the boiler head. About a thousand dollars' worth of piping will have to be supplied to make the machinery complete.

DELEGATES TO THE NATIONAL CAPITAL CONVENTION.—The Salem *Statesman* says: "Gov. Woods has appointed Messrs. A. A. McCully of Marion county, John Barrows of Linn county, and C. C. Beekman of Jackson county, delegates to the Convention to be held at St. Louis, Oct. 20th, to take steps to secure the removal of the National Capital to the Mississippi Valley."

LEG BROKEN.—A carpenter at work upon St. Helens Hall, whose name we did not learn, met with the misfortune, yesterday morning, to get his leg caught under a falling rick of lumber, and had it broken in two places. He was taken in charge by the Relief Committee of Odd Fellows, of which Order he is a member.

GOODS FOUND.—We learn that a portion of the stock of Mr McQuillan, supposed to have been stolen at the late fire on Front street, has since been discovered. The goods were found stored in a room adjoining the one in which the rest of the goods were placed—after the fire.

RAIN.—Yesterday was ushered in by a cold, nasty drizzling rain. The day, throughout, was as disagreeable as a regular Webfoot winter's day. We suppose we are entering upon the equinoctial storm, and may, therefore, be under a cloud for to, these many days.

PACIFIC BLADE.—Mr. McPherson, who is preparing to start the *Pacific Blade*, is in this city, having arrived last evening. He informs us that he will issue the first number one week from to-day.

THE WORLD CIRCUS.—We notice by our exchanges that this circus draws large houses, from which we may conclude that it has more than ordinary merit.

CHAMPAGNE CIDER.—The proprietors of the Excelsior Soda Works are making preparations for the manufacture of champagne cider—a genuine article.

DEATH CONFIRMED.—Hassalo Lodge I. O. O. F., has received a letter confirming the reported death of Frank Carditt at Virginia City.

INSTRUCTION.—Rev. Dr Eckman is about to enter upon stated courses of instruction to children at the Washington Guard's Armory.

FREIGHT FOR SAN FRANCISCO.—The *Oriflamme* which sailed last evening, carried away a full cargo of produce.

PERSONAL.—Gov. Woods arrived down from Salem, by the boat yesterday afternoon.

TO HEBREW PARENTS—RELIGIOUS INSTRUCTION.—Dr. Eckman has commenced imparting religious instruction to the children of those parents who may be desirous of committing their children under the (almost paternal) care of a man whose truly religious character and simplicity have ever most extraordinarily attuned his mind to that of simple childhood, and exercised a "magnetic" power over the juveniles brought within his influence which unregenerate minds can never acquire. The instructions will, till the new Synagogue will be completed, be given at the Washington Armory Hall, next building to the Portland Library. Till then, they will be given on the Sabbath and Holy days, after the close of the regular morning service.

By order of the President.

s17 P. LEVIN, Secretary.

"Employment so certainly produces cheerfulness," says Bishop Hall, "that I have known a man come home in high spirits from a funeral because he had the management of it."

A Danbury (Ct.) farmer, whose stack of hay was "growing smaller and beautifully less," posted himself one night to find out the cause, and soon had the satisfaction of seeing a fellow approaching with a fork. The farmer waited till the thief had got his fork full, and was walking off with it, when he came up behind him and set fire to the hay, which soon blazed up terribly. The fellow was effectually cured of stealing hay from that locality, at least.

THE EQUALIZER!
Treating Disease by Vacuum!
DR. H. A. BODMAN

HAVING PURCHASED HADFIELD'S EQUALIZER and the Patent Right for Multnomah county, would respectfully inform his friends and the public generally that he is prepared to treat successfully those Chronic cases on whom all other means of cure have failed.

Having used this Instrument in connection with his former practice for about three months, he is satisfied that it will accomplish all that is claimed for it in curing Chronic Disease. He does not believe in the system of advertising cases cured, but any number of such may be seen on record at his office, consisting principally of Rheumatism, Neuralgia, Paralysis, Curvature of the Spine, Nervous Debility, Dyspepsia, Weak Chests, Asthma, Narrow Chests, Weak Lungs, Weak Backs, Weak, Stiff and Rheumatic Limbs, Sciatica, Spasms, Epilepsy, Palsy, St. Vitus Dance, Prolapsus Uteri, Obstructed Menstruation, with all their concomitant Diseases, Impotency and all kinds of weaknesses of the Generative Organs. Spermatorrhea confidently cured in from four to six weeks without medicine.

He uses other remedies when necessary, but the Equalizer generally performs the cure without the aid of any medicine whatever. It brings a greater supply of blood and nutrition to all weak parts, thus creating new life and tone, and health, and strength in those parts. It breaks up congestion and inflammation by equalizing the circulation throughout every part of the system.

Give it a fair trial and you will be satisfied with the results. It has been examined by thousands of physicians of all Schools of Medicine, and there has not been one dissenting voice to the contrary of the principle, all acknowledge that it fills a vacuum in the science of Medicine.

Mr Seward's Visit to Mexico

Mexico (August 16) Correspondence of the New York Sun

Before the Hon William H Seward left his home for a summer trip through the Valley of the Mississippi, across the Rocky Mountains and up the Northern Pacific coast word was sent to President Juarez that himself and party contemplated returning from the west side of the continent across the Republic of Mexico President Juarez replied by sending a most urgent invitation which by Gen Rosecrans advice was sent to San Francisco The invitation which was signed by Don Benito and Cabinet, several Generals of the army and Judges of the Supreme Court requested the Hon Secretary to disembark at Manzanillo State of Colima and six days' sail from San Francisco

This has been decided upon as the route of entrance into Mexico The Pacific Mail Steamship Company's steamers touch at Manzanillo twice monthly From there to the city of Colima is 30 leagues or about 80 miles The road is across the most western ridge of the Cordilleras. Colima is reached in one day from Manzanillo It is a beautiful city located in the center of a wide-spread valley or plateau of the declivity of the central Cordilleras, and 20 leagues from the volcano of Colima, which no sooner heard of the journey of our distinguished Secretary of State than it commenced more fiery work than Vesuvius ever contemplated The old crater, located in the center of a cone which towers 12,000 feet above the sea level, and which has slept for 70 years, began operations on the 12th of June A few days later four other craters opened in the sides of the vast mountain all five have been actively engaged in illuminating Colima valley since June 25

From Colima Secretary Seward will be escorted to Guadalajara, the second city of the Republic. From thence he will go to Chapala, embark on a small steamer recently arrived from San Francisco, and have an inland ride over one of the most silvery lakes in the world to Salamanca, in Guanajuato. From there his Mexican escort will conduct him to the silver fields of Guanajuato From Guanajuato, where the Spaniards surrounded and burned 2,000 Mexicans in 1810 Mr Seward will come to Queretaro, and unless the present difficulties there are settled, he will have an opportunity of seeing a regular Mexican revolution There, too, he can see where Maximilian laid down his life. From Queretaro the party will come into the valley and City of Mexico, where the governing powers and the rabble—the low classes will follow his triumphal march, shouting, "*Viva Mexico, Viva los Mexicanos, Viva los hombres del Norte!*"

And Mr. Seward will be feted The class that will do him grateful homage constitutes five-eighths of the people, The Secretary will see grander mountains with eternal crowns of snow, more beautiful fields of flowers, silvery streams, fruit orchards of orange, guayaba and limes, than he will ever have an opportunity of seeing again The Halls of the Montezumas are second to no city of our continent, and from Grand Cathedral Plaza [illegible] painted palace of mud, Castle, at Chapultepec, our distinguished statesman may view despoiled church and convent, and the apologies for canals, and the mythical hanging gardens of which Prescott writes, but which, of course, never existed save in the fertile, imaginative brains of the untutored Indians.

Prescott's and Abbott's gigantic causeways leading into this city Mr. Seward will search for in vain, for they, too, were but creations of enthusiastic Spaniards. When Mr Seward bids farewell to this city, he will go downwards to the coast on the new railroad, by the Pyramids, built 1,500 years ago, and under the shimmering snows and ices that crown Popocatapetl and Ixtaccihuatl After this trip has been made, Mr. Seward will find Switzerland valleys and mountains tame sights, and the Suspension Bridge at Niagara a toy compared with the incomparable structure now being built at the pass of the [illegible].

The [illegible] and Celestials

The "Know Nothing" Irish portion of the Democratic party, led by Senator Casserly, of California, favor the walling up of the Pacific Coast to keep out the Celestials. This is worthy [illegible] of Senator Casserly and our adopted citizens of Irish birth and parentage. The finest [illegible] in the world, as Daniel O'Connel used to term the [illegible] would enjoy all the blessings of liberty and all the [illegible] of this, the "Asylum of all nations," as Senator Casserly used to [illegible] with spread-eagle flourishes among the Sixth Ward Democracy twenty-five or thirty years ago. They would exclude the children of the "Flowery Kingdom" from privileges bestowed on them by the founders of Democratic institutions. There is a cool effrontery in this effort at exclusion that is purely Hibernian They would monopolize all the hod-carrying, ditch-digging, boot-blacking, pot-walloping, street-scavengering, etc It don't seem to have occurred to them that Ireland, prolific as she is, must give out before many years in supplying "hewers of wood and drawers of water" for all creation In their narrow selfishness they would make their afflicted countrymen "drudges" and "mud sills" for all time to come. They would make them an inferior race and not the superior race that they are. Civilization shows everywhere that the lowest kind of toil is imposed upon the inferior race.

Senator Casserly is bringing down his countrymen to the level with the Asiatics by making them competitors for servile employment He should have more respect for them. The immigration from Ireland to this country has fallen off nearly fifty per cent. within the last three or four years. It will continue to decrease as the condition of Ireland improves, as it will under the reforms about to be inaugurated in that misgoverned country. The children of Irish parents do not take to hod-carrying and pot-walloping any more than other American born-boys and girls. They will neither work in the kitchen nor dig in the ditch—most of them run to mercantile and professional life. An American born girl in the kitchen, the laundry, or any domestic service, is as great a curiosity as the eclipse

It is time that some other race should take the place of the Irish as diggers and delvers. Ireland, we repeat, cannot furnish the labor and service which this great and growing country will demand in future. The Celestials must take the place of the Milesians, and become "the hewers of wood and the drawers of water." Senator Casserly and his friends might just as well undertake to scull up the Niagara Falls with a crowbar as to think of stopping the tide of immigration from the shores of China —*New York Commercial Advertiser.*

New Propeller for Steamers.—A new style of sidewheel propeller is exhibiting at Bridgeport, Connecticut, on a model steamer, which is said to be free from the jar of the present style of sidewheels, will secure greater speed, and produce less commotion in the water The wheels are like augurs, and are in fact, a prolongation of the common screw in a circular form Such a shaped wheel would doubtless enter the water easier than the ordinary sidewheel, and be free from the heavy drawback the latter labors under in leaving the water, but whether it will give more power with an equal amount of steam is not so clear.

A model steamer with an augur like screw running alongside the keel from stem to stern was on exhibition many years back, but we never heard that the invention was ever applied to any vessel The only difference between that and the Bridgeport plan is that the former was a straight augur, while the latter has a circular shape There is always found to be a great difference between the working of a model and the application of the invention to practical uses But if a new invention will obviate the incessant jar and other objections that the ordinary sidewheel labors under, and also save the severe twisting of the stern that is so objectionable in the screw—even if there is no gain in speed—it will be a great improvement over the present means of propelling steam vessels

The Augusta (Ga) *Constitutionalist* is willing that Andrew Johnson should go to the Senate, but it wants him to go there as a Tennessee politician, and protests against his going as a representative of Southern sentiment. It tells him that he was always against Southern sentiment and Southern rights as long as it was the fashion to be so, and that sooner or later the South will have some of her faithful sons to represent her—"younger men who have drawn inspiration from her grand prophets, and whose baptism was in the blood of a glorious though baffled revolution"

The Bonaparte Pretender

HAD THE DUKE OF REICHSTADT A SON?

The Imperial Criminal Court of Vienna has received a letter signed "Prince Eugene Joseph Napoleon Bonaparte" and dated Stuttgard, June 28, of the present year In it the writer claims to be the son of the King of Rome, the sole offspring of the great Napoleon and of Maria Louisa better known to history as the Duke of Reichstadt The claimant avers that his mother a descendant of an old and noble Hungarian family was very secretly married to the Duke of Reichstadt by whom she had two children twins the writer and a girl now the wife of Prince George in Saxony The boy also claims that as a boy he was raised by a tailor named Ludwig, of Wurzen Saxony on whom he was foisted by the act of his mother whom he says is still living and of knowledge of whose whereabouts he charges his sister—a knowledge he invokes the court to enjoin her to divulge as also he wishes to have an order for the examination of his birth and baptism certificate to be entered up This is the case as made out circumstantially Of course only inquiry can demonstrate it to be a truth or to explode it as a fallacy Against the probable truthfulness of the tale, however exist the facts that the personation of princes has been the dodge of ingenious impostors for centuries, the absence of any rumor even hitherto that the Duke of Reichstadt who died at twenty three of consumption ever married and the current impression, fortified by all kinds of sub-historical narration, that the young man was an imbecile in a double sense. The investigation of the alleged marriage and sonship will hardly arise to the dignity of judicial action, and is likely to furnish only fleeting food for quidnuncs who delight to delve out pretenders, whether French or English

Breeches

Miss Anthony argues, not a bit unreasonably, that the ordinary female dress is unnatural inconvenient and unhealthy, and that that the male dress, because it "recognizes nature's endowment of the human species with legs, is more natural and sensible, as well as more convenient This is quite true, but what compels women to wear the inconvenient and unnatural garb? Miss Anthony knows very well It is not law It is not necessity or convenience It is simply fashion, And that fashion women themselves create, maintain and uphold. Men have the independence to defy it, and to devise for themselves such dress as they please to wear Women stand in awe of each others' tongues, and wear what the fashion prescribes. The "tyrant man" does not interfere with the right of any woman to wear what dress she chooses, but other women do. Nine men out of ten, we venture to say, would be more pleased to see a woman get rid of those unnatural bunches on the back of the head, and leave the waist free and natural, and wear such form of clothing as would suit her occupation, the weather, or her own convenience But women frown upon every departure from fashion's laws Men were never pleased to see women wear long skirts trailing in the mud, but the women insisted on it as long as it was "the fashion." Men would to-day be glad to see Miss Anthony or any other woman dress as she may think most convenient. Let her wear the bifurcated garments whenever she likes, and coats that shed water and hats that protect the head, when she goes out into the rain, and then appear in all the glory of trailing silks and flying laces in her parlor, if she pleases; and the male creation, we are very sure, will applaud her sense and independence. But neither Miss Anthony nor any other woman pleases to face the censure of her own sex! She wants to wear a more natural dress, and is prevented not by tyrant man, but by tyrant woman!

Removal of the Capital —Washingtonians are becoming greatly excited over the proposition to remove the capital Their alarm finds vent in newspaper leaders and communications from staid old citizens One journal publishes two columns of letters on the subject, and another discourses in the following strain [illegible]

The owners of our stores and dwellings depend for their rent, our merchants mechanics and other trades people for their custom, almost wholly upon the disbursements of the Government to its employees, local contractors and others The money thus disbursed is drained out of the city month by month as soon as it leaves the Government coffers, for there is scarcely a thing we need to eat, to wear or for any other purposes, produced among us. All are purchased elsewhere When we reflect that the inhabitants of the city number nearly 100,000, while the employees of the Government are scarcely one in twelve of this population, the impossibility of our people prospering under existing conditions is itself evident. People with capital to invest go on building stores, restaurants and other trading places, while others rent them and stock them with goods, apparently regardless of the question where customers are to come from.

ENDORSEMENTS.

Olympia W T March 27 1869.

C A WHITE, Esq.—*Dear Sir* Having examined your original map embracing that portion of Washington Territory west of the Cascade Range, I desire to add my testimony to its value Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness

It is a map will fill a want that has long been felt not only among the residents of this Territory but those who are desirous of obtaining information of this portion of the Far West and I trust that we shall soon see it in a form suitable for general distribution.

JAS S LAWSON
Asst. U S C S.

We endorse the annexed opinion of Jas S Lawson, Esq, and will add that Mr Chas A. White is a practical surveyor and has had access to the township maps in the two Land Offices in this Territory as also the Coast Survey charts; and we can vouch for his map of Washington Territory west of the Cascade Range of Mountains as being correct and the only good map of the same territory that has been made.

ORTON'S PREPARATION

ESTABLISHED 1866

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco in any person, no matter how strong the habit may be. If it fails in any case the money will be refunded. It is perfectly safe and harmless to all. It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation, there is no trouble *Hundreds have* used it who have borne witness to the fact, that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it as he was before he commenced its use The Preparation acts directly upon the same glands and secretions affected by Tobacco and through these upon the blood, thoroughly cleaning the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco *No more hankering for Tobacco after using Orton's Preparation*

The time taken to allay all desire for Tobacco by the use of the Preparation varies slightly in different persons, the average time being about *Five days*. Some have no desire for Tobacco whatever after using the Preparation *Two days*

The *Health and Purse* of every Tobacco user in the country calls loudly ABANDON THE USE OF IT

RECOMMENDATIONS.

The following are a few selected from the many recommendations in our possession

We, the undersigned hereby certify that we have used Orton's Preparation for Tobacco for the purpose of destroying the appetite for Tobacco and can assure those who are suffering from this habit that Orton's Preparation will completely destroy the appetite for Tobacco quickly and *permanently* and without any bad effect upon the health and without creating an appetite *either for the Preparation or any substitute.*
